SAVE 10% OFF RRP

INSTANTFOAM HAND SANITISER

CODE: IFP1L

Effective, non-alcohol based foam sanitiser kills 99.9% of many common germs when used properly.

- Unlike gel sanitisers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple uses.
- Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
- The rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
- Contains skin conditioner that help prevent drying and leaves the skin feeling smooth after use.
- Perfume-free & Dye-free.

SAVE 10% OFF RRP

REFRESH AZURE FOAM HAND WASH

CODE: AZU1L

Washes away over 99% of dirt and germs with just a single pump and formula is readily biodegradable.

- The 'Crisp Fruit' Signature Fragrance has caring, pleasantly fresh and clean notes to elevate the restroom experience for everyday use.
- Proven to have broad appeal amongst washroom users with mild formulation, which is dermatologist tested to verify and confirm it does not elicit dermal irritation.

SAVE 10% OFF RRP

REFRESH CLEAR FOAM HAND WASH

CODE: CLR1L

Washes away over 99% of dirt and germs with just a single pump and formula is readily biodegradable.

- Skin hypoallergenic formula is dermatologist tested to verify and confirm the product has very low allergenic potential and is designed for sensitive skin.
- Proven to have broad appeal amongst washroom users with mild formulation, which is dermatologist tested to verify and confirm it does not elicit dermal irritation.
- Perfume-free & Dye-free.

NATURAL PLANT FIBRE CLAMSHELL 23X15X8CM

CODE: B-HL-96-N-PF

This clamshell container is made from sugarcane fibre (bagasse).

Sized at 9x9x6 inches, it is designed for takeaway and delivery applications, with a secure hinged lid that helps retain heat and protect food during transport. The rigid structure handles both hot and cold foods, including meals with sauces or moisture.

This product is certified home compostable to AU standards (AS5810).

23CM / 9" ROUND PLANT FIBRE PLATES

CODE: B-PL-09-PF

This 9-inch round plate is made from sugarcane fibre (bagasse).

The plate is designed to hold both hot and cold foods, with a structure that resists bending and handles foods with moisture or oil. Suitable for events, takeaway service, and general food use where a disposable plate is required.

This product is certified home compostable to AU standards (AS5810).

2-PLY 1/8 FOLD WHITE QUILTED DINNER BIONAPKIN

CODE: L-DNQ1/8-W

Not all paper dinner napkins are created equal. These 1/8-fold quilted white napkins are made from FSC™ Mix certified paper pulp, providing a more responsible option without sacrificing quality.

Crafted from FSC™ Mix certified pulp, these napkins support responsible forestry practices under the Forest Stewardship Council™ (FSC™).

240ML / 8OZ BIOBOARD NOODLE BOX

CODE: BB-NB-8

BiOPak BioBoard Noodle Boxes are crafted from sustainably sourced FSC™ Mix certified paperboard and a plant-based bioplastic.

This 8oz kraft-look noodle box is certified industrially compostable to AS4736 standards, making it a practical and more sustainable packaging solution.

Geller®

OneDose®

Pump. Clean. Done.

The Geller OneDose® system makes chemical dosing simple, safe, and consistent.

One pump delivers one perfectly measured dose every time. And one bottle delivers up to 100 RTU spray bottles for unbeatable cost efficiency. It's designed to cut waste, reduce risk and make training easier. OneDose® eliminates guesswork and helps teams clean with confidence.

Whatever surface or environment you're tackling, OneDose® delivers outstanding results without the need for complex equipment or costly installation.

With a full range of Performance, Eco and BioActiv® Synbiotic Concentrates available, there's a OneDose® solution for every surface.

1 Pump = 1 Dose

1 bottle = 100 RTU
spray bottles

1 bottle = 100
buckets 4-5L*

Smarter dosing. Better results.

Accurate

Pre-measured doses guarantee the right amount, every time.

Cost Advantage

Delivers proven cost in-use advantage versus budget products.

Safer

Improved cleanliness, lower handling risks for staff.

Smarter

Ultra-concentrated formulations in a compact, non-plumbed dispensing system

Simplicity

Easier for staff to use, minimal training required.

Compliant

MPI approved chemicals, compliant to food grade standards.

Infection CONTROL

IN AGED & CHILD CARE

DIVERSEY CLEANING SYSTEMS

Smarter Cleaning. Lower Costs. Better Results

Reduce Costs Without Compromising Performance

Diversey's advanced chemical dispensing systems are designed to deliver superior cleaning results while significantly lowering operational costs and packaging waste. Across four innovative solutions - Divermite®, J-Fill® QuattroSelect®, SmartDose®, and J-Flex® - you gain accuracy, efficiency, and total cost control.

DIVERMITE: SIMPLE, ACCURATE, COST-EFFICIENT

Kitchen cleaning has never been easier. The Divermite system from Diversey is a wall mounted system that combines the use of highly concentrated product formulations with accurate dosing, without the need for water.

Key Features and Benefits:

- No plumbing installation required.
- Frees up workspace with compact wall-mounted design.
- Accurate dosing prevents overdosing and waste.
- New 2L recyclable SafePack pouch.

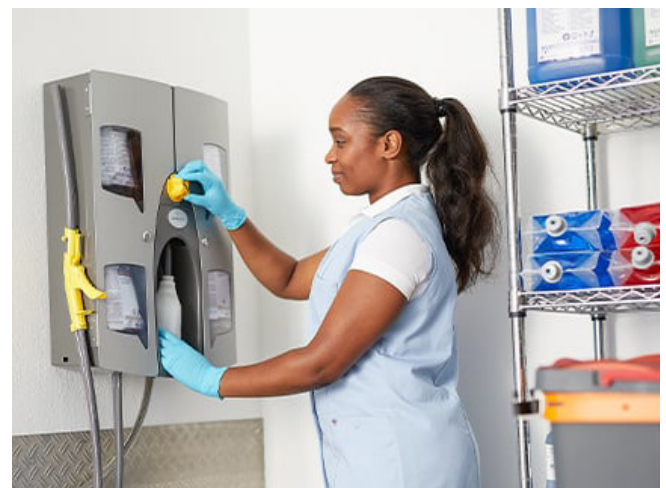

J-FILL QUATTROSELECT: HIGH CAPACITY, HIGH SAVINGS

The most advanced wall-mounted, locking dispensing system QuattroSelect dispensing system allows you to choose from four different products with the turn of a dial. Simply select the product you desire, choose one handed low flow bottle fill or high flow for buckets and floorcare machines and dispense ready-to-use solutions into spray bottles, buckets or automatic scrubbers. The lockable cabinet helps eliminate unwanted cartridge removal.

Key Cost Benefits:

- Suitable for sites with high volume of cleaning and centralised dispensing areas.
- Lockable cabinet prevents misuse and product loss.
- Delivers up to 2,500L of ready-to-use solution from just one 2.5L J-Fill bottle.
- Reduces transport, storage, and packaging waste.

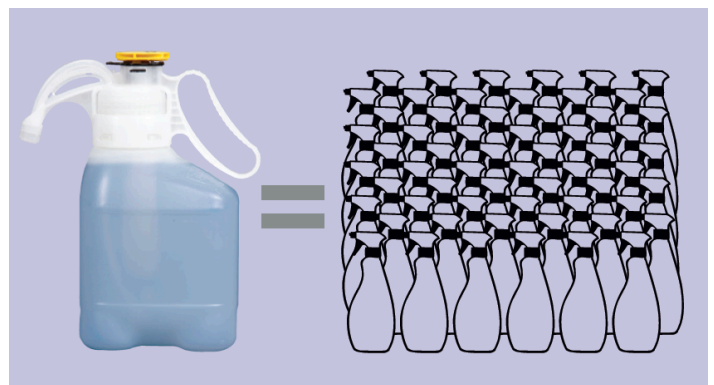

SMARTDOSE: PORTABLE PRECISION WITHOUT INSTALLATION

The simple range of concentrated, highly effective products meet almost all daily cleaning and hygiene needs effectively, efficiently and reliably. Perfection in dosing. The patented 'smart' pump and bottle design delivers an accurate dose of concentrated product simply, safely and swiftly. SmartDose allows for 2 different shot sizes, making it suitable for bottle, bucket, machine and sink filling.

Key Cost Benefits:

- Compact and portable dosing.
- No installation or equipment required.
- Fully recyclable. Packaging contains 20% PCR.
- Accurate dosing via patented smart pump system delivers excellent cost-in-use.

One 1.4 L bottle of concentrated glass cleaner is equivalent to 121 ready-to-use 1L spray bottles.

J-FLEX SYSTEM: MAXIMUM OUTPUT. MINIMAL WASTE

J-Flex with its ergonomically designed handle is portable and connects to any convenient water supply via a standard hose connector. Simply select the dilution required (trigger, bucket or machine) and ready to use product will be accurately & safely dispensed through its Spill-Tite® head every time. **A single J-Flex unit can dispense up to 2,500 litres of useable product with no wastage, after which it can be disposed as recyclable waste. The excellent cost in use has been shown to reduce end user costs by as much as 90%.**

Cost Control Benefits:

- Low case cost and reduced inventory.
- Elimination of product over-use and spillage.
- No equipment investment.
- No service or parts cost.
- Economic cost-in-use.
- Minimal training.

Simple Systems. Minimal Training.

Diversey systems deliver measurable savings across your entire operation:

- Lower Costs. Less Waste. Greater Efficiency.
- Reduce chemical spend
- Simplify inventory management
- Improve staff productivity
- Ensure consistent cleaning performance

Infection CONTROL

IN AGED & CHILD CARE

RapidClean
NEW ZEALAND

WASH YOUR HANDS

PROCEDURE:

1. Wet hands with warm water, soap palms and rub together for a minimum of 20 seconds.
2. Rub the back of each hand with the other palm.
3. Interlace fingers and rub together.
4. Curl the backs of the fingers into one palm and then the other.
5. Hold thumb and rotate, repeat with both hands.
6. Hold fingers and rotate, repeat with both hands then rinse thoroughly and dry hands with paper towel.

Action saves lives

World Hand Hygiene Day

5th May 2026

Since 2009, the World Health Organization has led the **SAVE LIVES: Clean Your Hands** campaign, spotlighting one of the simplest and most powerful tools in infection prevention: **proper hand hygiene**.

Now in its 18th year, this global movement continues to unite healthcare providers, organisations, and communities with one shared mission - **protect lives through better hygiene**.

WHY IT MATTERS:

Healthcare-associated infections (HAIs) remain a major global challenge—and many are preventable.

They:

- Drive antimicrobial resistance (AMR)
- Cause avoidable illness and loss of life
- Increase pressure on healthcare systems
- Compromise safe, quality care

The solution? Action.

Effective hand hygiene is one of the **highest-impact, lowest-cost interventions available**.

TURNING AWARENESS INTO ACTION:

Make hygiene part of everyday practice:

Follow best practice

Adhere to the WHO's 5 Moments for Hand Hygiene

Embed into systems

Integrate hygiene into policies, procedures, and daily workflows

Measure & improve

Track compliance and strengthen performance across all facilities

SUPPORTING SAFER ENVIRONMENTS

RapidClean New Zealand helps organisations raise hygiene standards with:

- Reliable hand hygiene products
- Smart dispensing solutions
- Practical expertise for safer workplaces

MAKE EVERY ACTION COUNT

This **May 5**, be part of a global movement.

Because when it comes to hygiene...

ACTION SAVES LIVES

RapidClean NEW ZEALAND
