DIVERSEY SUMA SURFACE SANITISER SMARTDOSE

CODE: 5509261

Suma® Sanitiser SmartDose™ is a concentrated quaternary ammonium chloride-based, no rinse sanitiser for use on all hard surfaces including food contact surfaces in food premises.

The SmartDose system provides maintenance-free setup (no installation, water connection or servicing) and requires little training for exceptional performance. It utilises automatic and precise doses per application to deliver consistent cleaning for your everyday hygienic needs.

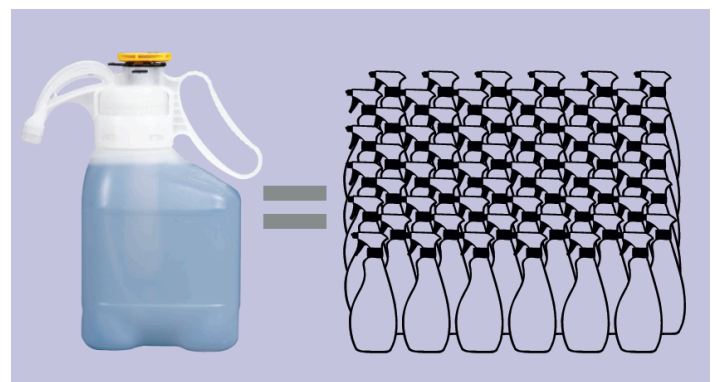

DIVERSEY SMARTDOSE SYSTEM

SmartDose is an innovative dosing platform for super concentrate daily cleaners and disinfectants, setting a new industry benchmark of accuracy, simplicity, and safety for users without the need for a connected water supply.

The Smart pump technology is also practical and uses icon-based instructions. This makes it possible to vary shot sizes for different cleaning methods, including spray cleaning, bucket cleaning, or scrubber driers, while requiring minimal user training and no measuring. Being a closed system, it provides the maximum level of safety and cost control.

SmartDose reduces the environmental footprint of all its users and is fully recyclable. SmartDose offers packaging, chemical, storage, as well as transport benefits versus standard platforms.

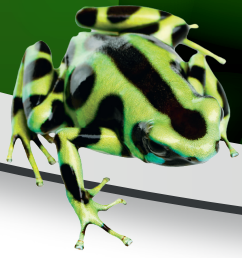

One 1.4 L bottle of concentrated glass cleaner is equivalent to 121 ready-to-use 1L spray bottles.

How Smartdose Works:

1. Turn the control knob to select the appropriate icon.
2. Pull up on control knob one time to prime the pump.
3. Push the knob down fully to pump a precise dose of concentrate needed for the correct dilution when mixed with water.
